Dear Business,

RE: Waste and recycling collections during The NFL Event on 8th September 2018.

On Saturday 8 September an NFL Event will take place in the immediate area surrounding your business. This means your street may face closures for all vehicle traffic including for servicing such as deliveries and waste collection. The Metropolitan Police and the City Council will manage these road closures during the entire event. Please be aware that road closures might start earlier or finish later dependent on the actual crowds in attendance. For exact details on road closure timings and event information please visit the Events web pages via westminster.gov.uk/event

This letter outlines the arrangements around waste and recycling collections from businesses in the event area which may take place at different times than what you are used to.

Regardless of who is contracted to collect your waste, please **do not place any of your waste/recycling bags or container(s) out for collection during the event** since any obstruction to the highway and spectator flow could put public safety at risk, and in the event of injury or damage to property could lead to repercussions for your business.

Businesses who use the collection services of the City Council and Veolia will have their waste collected during the event clean-up **at 6.30pm** provided it is presented in the official red and blue bags. Do not use ordinary black bags as you will be at risk of receiving Fixed Penalty Notices or prosecution. Please ensure you order extra bags or container collections to cope with any extra waste you might produce during the event. You cannot place excess waste out for collection in standard black bags.

Customers of other waste contractors will need to make their own alternative collection arrangements with their contractor. There will be no access for these contractors for as long as roads are closed and waste cannot be placed on the street during this period. It can lead to enforcement action taken.

Please be aware that you are allowed to present bagged waste for collection in nearby streets that aren't affected by the road closures, provided this happens in the presentation timebands for the street concerned and the waste is presented in bags supplied by your waste contractor.

Details of timebands for other streets can be found on our Street Search web page

<http://transact.westminster.gov.uk/env/streetsearch.aspx>.

If you require further help with your collection arrangements during NFL Event then please contact us via the phone number or email at the top of this letter.

Yours sincerely,

Waste Services Advisor
