

COVID-19 – Daily News Bulletin

28 April 2020

Heart of London Business Alliance is committed to ensuring our members receive the support they need while the situation in relation to COVID-19 is fast-changing. Our Daily Bulletin provides you with an update on the important announcements and guidance from the Government. In addition, it is recommended that our members monitor the [GOV.UK](https://www.gov.uk) website for guidance regarding COVID-19.

Together with our local Member of Parliament, Nickie Aiken, Heart of London will continue to lobby Government for support for our members and your employees during this difficult time.

Headlines

- Prime Minister Boris Johnson returned to work, three weeks after being admitted to hospital with coronavirus
- The Health Secretary took to the No.10 lectern on Monday evening, where he announced a new approach to the daily press briefings and the restoration of some day-to-day healthcare services
- In the House of Commons, Chancellor Rishi Sunak announced a new micro-loan scheme to support the UK's smallest businesses

Government Daily Covid-19 Press Conference - Monday

- Health Secretary Matt Hancock was joined at Monday's Downing Street Press Conference by Dr Chris Whitty, Chief Medical Officer and Professor Stephen Powis, National Medical Director of NHS England.
- Mr Hancock announced a new approach to the daily press conference, where one question submitted by a member of the public will be answered each day. The first question, chosen by an independent polling company from a pool of 15,000, focused on the Government's plans to lift lockdown measures to allow close families to spend time together.
- Turning his attention to the NHS, Mr Hancock announced a new Life Assurance Scheme for the families of NHS staff that had lost their lives due to COVID-19. Through the scheme, family members will receive death in service compensation of £60,000. Responding to a question as to whether overseas workers will be eligible for the scheme, the Health Secretary made clear that the scheme is for NHS and social care frontline workers but stated that the Government is looking at other professions that may be eligible.
- Providing an update on NHS capacity, Mr Hancock announced that 3,190 critical care beds are not in use, 40% of oxygen-supported beds currently lie empty and the number of people in hospital with COVID-19 is beginning to fall. He added that Monday saw the opening of the eighth Nightingale Hospital, calling the initiative one of the most ambitious projects in British post-World War history.
- Moving away from COVID-19, Mr Hancock explained that fewer people are using the NHS "when they need to" - A&E attendance has dropped from 221,000 emergency attendances this week compared to 477,000 attendances in the same week last year – more than a 50% decline in usage. The Health Secretary pointed to social distancing measures and an increase in online services as factors, however appealed to the public to use the NHS "as you always would" for health-related concerns.
- To this effect, the Health Secretary announced that from Tuesday the NHS will begin restoring some healthcare services, including cancer treatment and mental health support services. The exact pace of the restoration will be determined by local need, the capacity of local services and the number of coronavirus cases within localities.
- Responding to a question on testing, Mr Hancock announced that the UK has surpassed South Korea in terms of the numbers of tests taking place daily and is approaching numbers equivalent to Germany.

“Moment of Maximum Risk”

- Prime Minister Boris returned to work on Monday, three weeks since being admitted to hospital with COVID-19.
- In an address to the nation, he said he refused “to throw away all the effort and sacrifice of the British people and risk a second major outbreak and huge loss of life”. He stated that now is the “moment of maximum risk,” and stressed that the lockdown must stay in place until the Government’s five tests have been met.
- Mr Johnson stated that further updates would be given in the coming days but emphasised that the UK must continue to “collectively shield our NHS” so doctors and nurses can “shield all of us from an outbreak.”

Bounce Back Loan Scheme

- During a statement to the House of Commons, the Chancellor of the Exchequer announced a new fast-track finance scheme for small businesses struggling to access credit.
- The new Bounce Back Loan scheme will provide businesses with loans for up to 25 per cent of turnover, up to £50,000.
- The Chancellor confirmed that the Government will pay the interest on the loan for the first twelve months and will provide lenders with a 100% loan guarantee. Businesses will not be expected to begin repayments during the first year.
- The Chancellor confirmed that most businesses will receive loans within 24 hours of approval, and can apply using a standard form, without forward-looking tests of business viability or complex eligibility criteria.
- The scheme will launch for applications on Monday 4 May, with firms able to access loans through a network of accredited lenders.
- The new scheme is designed to complement the existing package of support available to the smallest businesses affected by COVID-19. Defending the Government’s actions to date, Mr Sunak said that he believed [the UK’s] “response has been one of the most comprehensive of any country, anywhere in the world.”

Summary of UK COVID-19 Business support schemes

The UK Government has announced a series of economic interventions aimed at supporting employees, employers and businesses through the uncertainty and potential loss of income resulting from the Covid-19 crisis and the restrictions on business activity as a result.

The Government has established a business support [web portal](#) with details on eligibility and how businesses can apply for support. A summary of those measures is listed below. Please see overleaf.

Summary of UK COVID-19 Business Support Schemes (with hyperlinks)

Employment Retention Measures

- **COVID-19 Job Retention Scheme:** Employers can claim 80% of their usual monthly wage costs for furloughed employees, limited to £2,500 per individual, plus the associated Employer National Insurance contributions and minimum automatic enrolment employer pension contributions on that wage. The temporary scheme will be open to all UK employers for at least three months, backdated to 1st March 2020. The scheme is expected to be operational by the end of April. This scheme has been extended to the end of June to account for extended social distancing measures.
- **Statutory Sick Pay Rebate:** The Government will refund eligible SSP costs to all employers with fewer than 250 employees. This applies to a claim as a result of COVID-19 self-isolation and is limited to two weeks per employee. While existing systems are not designed to facilitate such employer refunds for SSP, the Government will work with employers to set up a repayment mechanism as soon as possible.
- **Self-employed Income Support Scheme:** Most self-employed workers will be able to apply for a grant of up to 80% of average monthly profits from the last three years, capped at a maximum of £2,500 per month. The scheme will cover three months' earnings with the first lump sum payments anticipated in June. The scheme will be open to those with trading profits of up to £50,000 in 2018-2019 or an average annual trading profit of up to £50,000 from 2016-17, 2017-18 and 2018-19. At least half of a claimants' income must come from self-employment.

Bridging Loans to Mitigate Business Disruption

- **COVID-19 Commercial Financing Facility:** The Bank of England's Covid-19 Commercial Financing Facility is intended to support large companies of investment grade standing. Loans, through the purchase of commercial paper of up to one-year maturity, will be provided to support short term liquidity, mitigating against cashflow disruption. The scheme has been extended to include those businesses that are too large to qualify for the Coronavirus Business Interruption Loan Scheme (see below) but do not have an investment-grade rating. This will be achieved by constructing a credit rating from information about firms' relationships with their banks.
- **Coronavirus Business Interruption Loan Scheme:** To support small business access to bank lending and overdrafts, the Government is guaranteeing 80% on loans provided through the scheme, up to an individual value of £5m (subject to a per lender cap on claims). Most UK businesses with turnover of under £41 million will be eligible. The scheme is being facilitated by the British Business Bank through participating partners (which includes most high street banks). For borrowers, no interest will be charged for the first twelve months of the loan, which will be paid by the Government. The Government will not charge businesses or banks for this guarantee. As of April 3, the Government has extended the scheme so that all viable small businesses affected by COVID-19, and not just those unable to secure regular commercial financing, will now be eligible should they need finance to remain operational.
- **Coronavirus Large Business Interruption Loan Scheme:** The Large Business Interruption Loan Scheme will provide a government guarantee of 80% to enable banks to offer loans of up to £25 million to firms with an annual turnover of between £45 million and £500 million. This is intended to give banks the confidence to lend to more businesses which are impacted by coronavirus. Loans backed by a guarantee under CLBILS will be offered at commercial rates of interest and further details of the scheme will be announced later this month.
- **Bank of England Term Funding Scheme:** The Bank of England has introduced a new Term Funding Scheme with additional incentives for Small businesses financed by the issuance of central bank reserves. Over the next 12 months, the scheme will offer four-year funding of at least 5% of participants' stock at interest rates at, or very close to, Bank Rate.
- **Future Fund:** The Government will offer a new unsecured convertible loan facility for amounts between £125,000 and £5,000,000 for a maximum 36-month term. The scheme will launch in May and will initially be open until September 2020. To qualify a company must have raised at least £250,000 in equity investment from third party investors in the last 5 years and be based in the UK. The Government loan must be matched by third party investment and be used for working capital.
- **Innovate Loans:** UK businesses driving innovation and development will be helped through the coronavirus outbreak with a £1.25 billion government support package to ensure firms in some of the most dynamic sectors of the UK economy – ranging from tech to life sciences – are protected through the crisis so they can continue to develop innovative new products and help power UK growth. The Innovate Loans scheme will be a £750 million fund for targeted support for small and medium sized businesses focusing on research and development and be made available through Innovate UK's [national innovation agency] grants and loan scheme and will accelerate up to £200 million of grant and loan payments for its 2,500 existing Innovate UK customers on an opt-in basis. An extra £550 million will also be made available to increase support for existing customers and £175,000 of support will be offered to around 1,200 firms not currently in receipt of Innovate UK funding. The first payments will be made by mid-May.

- **Bounce Back Loans:** From Monday 4 May, small businesses will be eligible for a fast-track finance scheme providing interest free loans with a 100% government-backed guarantee for lenders. The scheme will allow businesses to borrow between £2,000 and £50,000 (up to 25% of turnover) from accredited lenders, and will not need to begin repayments for the first year.

Grant Funding measures

- **Grant Funding for Businesses who qualify for SBRR:** Individual grants of £10,000 will be made available through local authorities to businesses eligible for Small Business Rate Relief (SBRR) that already pay little or no business rates.

Tax Relief Measures

- **VAT Deferral:** The Government will defer VAT payment demands for the next quarter, meaning that no business will pay any VAT until the end of June. Businesses will have until the end of the year to reconcile any accumulated tax debts.
- **Temporary Changes to the Statutory Residence Test:** HM Treasury has proposed a series of changes to UK Tax legislation and the Statutory Residence Test to ensure that for “any period(s) between 1 March and 1 June 2020 spent in the UK by individuals working on COVID-19 related activities will not count towards residence tests that potentially bring global earnings within the purview of UK taxation. These changes are time limited and will only support those people whose skillsets are currently required.” These changes are designed to allow skilled individuals to come to the UK and help respond to the pandemic.
- **Support for Businesses Paying Tax:** HMRC have established a dedicated COVID-19 helpline to support businesses and self-employed individuals unable to meet tax demands due to Coronavirus related disruption. Bespoke Time to Pay arrangements will be offered to those businesses with a legitimate need and support their recovery while operating through any temporary financial challenges. HMRC will also waive late payment penalties and interest where a business experiences administrative difficulty due to COVID-19.
- **Deferral of Self-Assessment Payment:** Income tax payments on account due under Self-Assessment on 31st July 2020 will be deferred until 31st January 2021. All self-employed individuals will be eligible.

Sector-Specific Support Measures

- **Retail and Hospitality Grant Scheme:** A cash grant of up to £25,000 will be made available to businesses in England operating in the retail, hospitality and leisure sectors with a rateable value of between £15,000 and £51,000. For businesses in these sectors with a rateable value of under £15,000, they will receive a grant of £10,000.
- **Business Rate Relief for Retail/Hospitality/Leisure venues:** A 100% business rates holiday will be applied from 1st April for a period of one year to all retail, hospitality and leisure venue, including shops, pubs, restaurants and theatres. There is no limit to rateable values.
- **Business Rate Holiday for Nurseries:** Nurseries in England will not have to pay business rates for the 2020-21 tax year. This will apply to properties that are occupied by providers on the Government’s Early Years Register and are wholly or mainly used for the provision of nursery education.
- **Support Package for Charities:** Charities across the UK will receive a £750 million package of support to ensure they can continue their work during the coronavirus outbreak. This will include hospices.
- **Supermarket Competition Law:** To address a spike in public demand, the Government has waived a selection of competition laws to allow supermarkets and food retailers to coordinate operations such as opening times, product resources and the pooling of staff.

Other

- **Business Support Checker Tool:** The UK Government have released a new “support find tool” for businesses and self-employed people across the UK, to allow them to quickly determine what financial support is available to them, to handle the consequences of the pandemic. The new platform asks business owners and the self-employed to fill out an online questionnaire first.
- **Extension Period on Filing Accounts:** Businesses can apply for an additional three months to file accounts with Companies House to help avoid penalties as they deal with the impact of Covid-19. Applications can be made through a fast-track online system.
- **Coronavirus Business Support Hub:** Businesses can now access a new online portal which aims to compile “key information for businesses including on funding and support, business closures, your responsibilities as an employer and managing your business during coronavirus. The hub also includes information for self-employed people and sole traders.”

- **Business Interruption Insurance:** The Government has confirmed that the business impact of government advice restricting individuals' movements – and the knock-on impact on their financial activity – provides sufficient grounds for businesses to claim on their insurance where they have appropriate business interruption cover in place.
- **Protection for Commercial Tenants:** The Government has guaranteed that commercial tenants who are unable to pay their rent because of the COVID-19 outbreak will be protected from eviction. The measure applies for the next three months and is intended to support ongoing conversations between landlords and tenants about their arrangements.
- **Flexible Insolvency Rules:** Changes will include allowing businesses undergoing restructuring to continue trading and receive supplies. There will also be a temporary suspension of wrongful trading provisions for company directors to remove the threat of personal liability, which will apply retrospectively from 1st March.
- **Gender Pay Gap Reporting Suspension:** The UK Government has now also suspended enforcement of gender pay gap reporting deadlines for this reporting year (2019/20). "This decision means there will be no expectation on employers to report their data."
